If you are interested in getting corresponding physical clones, these are publicly available from ZmDB and may be found by BLAST searching at MSL, maizemap.org; ZmDB, www.rmdb.iastate.edu; TIGR, www.tigr.org; or NCBI, www.ncbi.nlm.nih.gov. When the source of the maize cDNA sequences is either Virginia Walbot, Stanford or Pat Schnabbe, Iowa State, then clones may be requested from ZmDB:

Submitted (15-ARR-2002) Maize Mapping Project, University of Submitted (15-ARR-2002) Maize Mapping Project, University of Missouri, Columbia, MO 65211, USA.

If you are interested in getting corresponding physical clones, these are publicly available from ZmDB and may be found by BLAST searching at MSL, maizemap.org; ZmDB, www.zmdb.iastate.edu, TIGR, www.tigr.org; or NCBI, www.ncbi.nlm.nih.gov. When the source of the maize CDNA sequences is either Virginia Walbot, Stanford or Pat Schnable, Iowa State, then clones may be requested from ZmDB:
                                                                                                                                                                                                                              1242

Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.

APPLICANT: Hernan Marshall Gonzalez, Sergio
TITLE OF INVENTION: HIGHLY IMMUNOGENIC PROTEIN AGAINST THE INTRACELLULAR PATHOGEN AGER
TITLE OF INVENTION: HIGHLY IMMUNOSENIC PROTEIN ARICH AFFECTS SALMON CULTURE, AMINO ACI
TITLE OF INVENTION: ACID SEQUENCES OF SALD PROTEIN AND ITS APPLICATION IN THE DEVELOR
TITLE OF INVENTION: METHODS FOR THE PREVENTION AND DIAGNOSIS OF DISEASES CAUSED BY SF
FILE REFERENCE: 076502-9004
CURRENT APPLICATION NUMBER: US/10/228,167A
CURRENT FILING DATE: 2002-08-26
PRIOR APPLICATION NUMBER: Chilean Patent Application No. US20030147909A1 2086-2001
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             ij
